Apple ID for Students
Parent Process

Apple ID For Students Parent Process

Your child will be receiving an Apple iPad at his/her school for use throughout the 2015-2016 school year. Each device requires a unique Apple ID. Each student is required to have his/her own Apple ID to use in association with their device. The process is different based on the age of your student.

Students 13 years and older
If your child is 13 years or older, they will create their own Apple ID. We recommend using their school-based Gmail account and password for their Apple ID. This helps to make it easier to remember and also allows school personnel the ability to more easily assist them with Apple ID login issues, should they arise.

Students 12 years and under
If your child is 12 years of age or under, you, their parent, will create their Apple ID using the steps outlined below. It's important to understand why this program is in place. In 1998, the federal government passed the "Children's Online Privacy Protection Act." This legislation makes it illegal for companies to gather data or personal information of children under the age of 13. To comply with this law, Apple created the Apple ID for Students program putting parents in control of their child's Apple ID. These Apple IDs created under this program do not collect any personal information or data on children under the age of 13. For more information on COPPA please visit http://www.coppa.org. For more information on Apple ID for Students, please see the Parent Guide.

The Apple ID for Students process
In the next series of screenshots, you'll find the process for creating your student's Apple ID:

Confirming your email address in Skyward
To ensure you receive the email from Apple, it is important to add or change your email address in Skyward. After signing in to Skyward, click on My Account in the upper right.

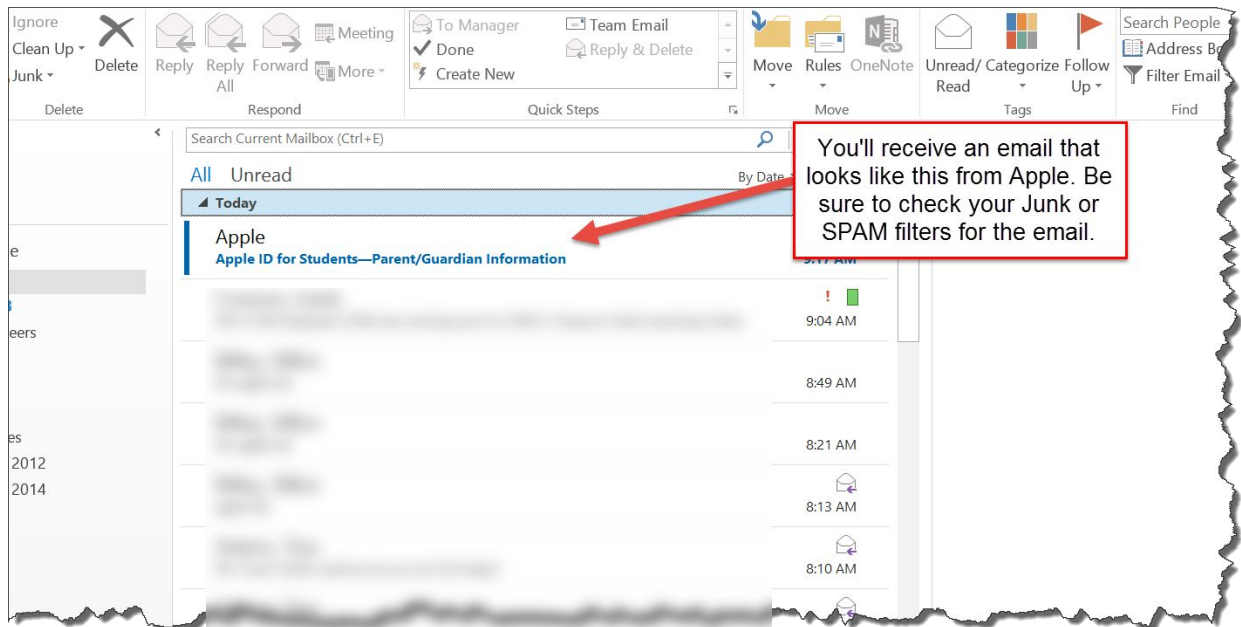

Your email address is the only editable field on this screen. After adding or editing your email address, be sure to click Save or you'll lose that change.

The email from Apple

If the email address in Skyward is correct, you'll receive an email from Apple with a subject of "Apple ID for Students--Parent/Guardian Information." Occasionally, this email ends up in your Junk or SPAM filter so be sure to check them if you do not receive the Apple email. In addition, if you believe you should have received the email but have not, please contact your child's school.

You'll receive an email that looks like this from Apple. Be sure to check your Junk or SPAM filters for the email.

Dear Parent or Guardian,

We are excited that your student will be using an iPad or Mac as a part of your school's program. We know that you want the best learning environment for your student—one that makes learning personal for each student and allows for creativity, collaboration, and critical thinking.

Please read this email carefully as it contains important information and instructions.

Apple ID for Students
As part of this program, your student will have an Apple ID—an account with Apple that provides easy access to school materials, like documents and textbooks.

For students under the age of 13, we must obtain your verifiable parental consent before we can create an Apple ID for your student. This is in compliance with the Children's Online Privacy Protection Act (COPPA). You will provide your parental consent by agreeing to the Parent Privacy Disclosure and Consent online.

For students under 13, the following features will apply:

- No credit card is required to set up the account.
- Limit Ad Tracking is turned on for the account to ensure the student does not receive targeted advertising from Apple.
- The accounts are unable to opt in to receive marketing materials from Apple.
- Parents and guardians are notified of material changes to the service or issues with the account.

Click on the link to the "online consent form"

For more information on the privacy features of Apple IDs For Students, please see the Parent Guide.

Creating an Apple ID
To create an Apple ID for your student, go to our online consent form.

You will be asked to enter the following temporary password: M8HH6█████

You'll be prompted for a password. Find that here. If copying and pasting, be sure there are no spaces added

Provide the information requested, and you will then be asked to review and agree to the iOS, iCloud, Game Center, and iTunes Store terms and conditions, Apple

you or issues with your student's account, or to verify a reset to your student's password.

Parental restrictions
An iPad or Mac can give your student access to a wealth of information. However, there may be times when you want to limit your student's access to certain types of content or resources. On your student's device, you can set restrictions, such as preventing in-app purchases and designating allowable content. Please refer to the Parent Guide to learn more about setting device restrictions. We strongly encourage you to set device restrictions promptly after creating your student's Apple ID.

For more information about Apple's education programs, please see apple.com/education.

Regards,
Apple Inc.

This is the body of the email you'll receive from Apple. This email provides information about the Apple ID for Students program and additional information including the Parent Guide.

About ⅔ of the way down, you'll find a section called "Creating an Apple ID." In this section, there is a link to the online consent form (where you'll create the Apple ID) and a temporary password. If you are copying and pasting this temporary password, be sure there are no spaces accidentally added to the end of the password when it's copied.

Click on the online consent form link and you'll be brought to Apple's website to create your child's account.

Creating the Apple ID

On this initial screen, enter (or paste) the temporary password from the email you received from Apple. Click Get Started.

The name and birth date will be filled in. If changes need to be made, make them here and choose a password for your child's Apple ID. Note the suggested password to help make the process easier.

Continued on next page...

Creating the Apple ID (continued)
Scroll down to see the next section of the form. Choose security questions that will be used if your child needs to reset their Apple ID password. Be sure to keep them simple enough for your child to remember but difficult enough so they cannot be guessed.

Creating the Apple ID (continued)
Continuing to scroll down in the email will bring you to the policy section. Here you're asked to read over and agree to the terms and conditions and the Privacy Policy. The Privacy Disclosure check box will become visible after reading the entire policy. Agree to all and click Create Apple ID.

You've just created your child's Apple ID. In the fall, school and district personnel will assist your child with setting up his/her Apple iPad. **Please be sure your child knows his/her Apple ID and password when he/she are scheduled to receive their device.** If you have any questions about this process or any questions about the iPads in general, please contact your child's school.
